EDUCATION

National Tsing Hua University **Hsinchu, Taiwan**

M.S. in Educational Psychology and Counseling, Concentration in Cognitive Psychology and Memory *Expected Jun. 2027*

- Advisor: Prof. Hsuan-Fu Chao.
- Research focuses on episodic future thinking, constructive memory, schema consistency, emotion, and subsequent recall.

Chung Yuan Christian University **Taoyuan, Taiwan**

B.S. in Psychology *2024*

- GPA: 3.89/4.00; Dean's List; Academic Excellence Awards in Statistics and General Psychology.

RESEARCH EXPERIENCE

Master's Research Project ***2025–Present***

National Tsing Hua University | Advisor: Prof. Hsuan-Fu Chao

- Investigate how schema consistency and emotional valence influence future event imagination and subsequent memory.
- Designed and conducted a behavioral experiment examining internal and external event details, vividness, and emotional arousal during future event imagination and delayed recall.
- Analyze behavioral data using linear and generalized linear mixed-effects models to examine the effects of schema consistency, emotional valence, and experimental phase.
- Currently extending this work to examine the cognitive processes underlying the construction and elaboration of imagined future events.

National Tsing Hua University ***2025–Present***

Graduate Research Assistant, Department of Educational Psychology and Counseling

- Coordinate participant recruitment, scheduling, and communication across behavioral research projects and part-time research assistants.
- Pilot-test PsychoPy and DMDX experimental tasks, document technical issues, and coordinate task revisions with programmers.
- Conduct behavioral experiments under standardized procedures and approved research protocols; support research ethics applications and laboratory operations.

National Science and Technology Council (NSTC) Undergraduate Research Grant ***Jul. 2023–Feb. 2024***

Student Principal Investigator

- Designed and conducted a behavioral study examining how counterfactual thinking and future time perspective shape emotional and behavioral responses.
- Programmed experimental tasks in PsychoPy, recruited 86 participants, and analyzed behavioral data using JASP.
- Managed the full research cycle, including proposal development, recruitment, data collection, statistical analysis, and final report preparation.

Chung Yuan Christian University ***Jul. 2021-Jun. 2024***

Undergraduate Research Assistant, Department of Psychology

Hsuan-Fu Chao Lab | *Jul. 2021–2023*

- Assisted with computerized behavioral experiments on attention, including pilot testing experimental tasks, conducting experimental sessions, and collecting behavioral data.

Yi-Chen Lee Lab | *2023–Jun. 2024*

- Programmed Qualtrics surveys, coordinated participant recruitment and data collection, and cleaned and preprocessed behavioral data for analysis.

PUBLICATIONS & CONFERENCE PRESENTATIONS

- **Huang, Z.-Y.**, Kung, K.-W., & Chao, H.-F. (2026, November). Effects of schema consistency and emotion on future event imagination and memory recall [Poster presentation accepted]. *Object Perception, Attention, and Memory Conference*, San Diego, CA, United States.
- Li-Wei Chen, **Zih-Yun Huang**, Zhen-Tai Liu, Juo-Yen Huang, Yen-Jung Li, & Jeng-Ren Duann. (2026, October). The neural mechanisms underlying implicit attitudes toward sexuality: An fMRI investigation using the Implicit Association Test. [Poster presentation]. *65th Annual Convention of the Taiwanese Psychological Association*, Taichung, Taiwan.
- **Huang, Z.-Y.**, & Chao, H.-F. (2026, May). How schema and emotion guide future event generation: Eye-tracking evidence from construction and elaboration [Research proposal poster]. *Association for Psychological Science Annual Convention*, Barcelona, Spain.
- **Huang, Z.-Y.**, Chao, H.-F., & Lee, Y.-C. (2025, October). The impact of counterfactual thinking on emotion and behavior: No moderating role of future time orientation [Poster presentation]. *64th Annual Convention of the Taiwanese Psychological Association*, Tainan, Taiwan.
- Chen, L.-W., Huang, C.-Y., **Huang, Z.-Y.**, Dai, S.-Y., & Lou, S.-H. (2025, October). Buffer or boost? The role of Big Five personality traits in stigma-related stress and rumination among sexual and gender minorities in Taiwan [Poster presentation]. *64th Annual Convention of the Taiwanese Psychological Association*, Tainan, Taiwan.
- Yeh, M., M'Bemba, E., & **Huang, Z.-Y.** (2025, June). A cross-cultural comparative study of self-determination theory in English learning motivation and engagement among university students in Taiwan and France [Oral presentation]. *PCE 2025 Conference*, Paris, France.

HONORS & AWARDS

NSTC International Conference Travel Grant ***2026***

- National Science and Technology Council, Taiwan; NT$45,000 (approx. CAD 1,900) to present research at the 2026 Association for Psychological Science Annual Convention.

Graduate Student Scholarship for International Conference Presentation ***2026***

- College of Education, National Tsing Hua University.

NSTC Undergraduate Research Grant ***2023–2024***

- Student Principal Investigator; NT$51,000 (approx. CAD 2,200) for an independent research project on counterfactual thinking, emotion, behavior, and future time perspective.

Merit Award, Data-Driven Innovation Competition ***2023***

- Tunghai University, Taiwan.
- Co-developed a gamified, location-based language learning app; contributed to feature design, research-based rationale, proposal writing, and UI design

First Place, Mental Health Creative App Idea Competition ***2022***

- Ministry of Health and Welfare, Taiwan.
- Co-developed a research-informed mental health app; contributed to feature design, literature review, proposal writing, and presentation.

Second Place, 2D/3D Perception Model Competition, 3D Category ***2022***

- Chung Yuan Christian University.

TEACHING EXPERIENCE

National Tsing Hua University **Hsinchu, Taiwan**

Teaching Assistant, Department of Educational Psychology and Counseling *Fall 2024–Present*

- Teaching Assistant for Cognitive Psychology (Fall 2024, 2025, 2026), Psychological and Educational Research Methods (Fall 2024, 2025), and Advanced Cognitive Psychology (Spring 2025).
- Graded examinations and assignments, prepared instructional materials, coordinated guest lectures, and supported course administration.

SELECTED LEADERSHIP & SERVICE

Taiwan NextGen Inclusive Psych **Taiwan**

Director of Administration *Jun. 2025–Present*

- Oversee administrative and financial operations for a student-led initiative supporting underrepresented Taiwanese students applying to psychology graduate programs abroad.
- Coordinate event budgets, speaker honoraria, reimbursements, administrative communication, and academic and professional-development events.

Chung Yuan Christian University **Taoyuan, Taiwan**

Member, Service-Learning News Team *2022–2023*

- Wrote and edited bimonthly newsletters featuring student service-learning projects and community engagement initiatives.

RESEARCH SKILLS

Experimental software: PsychoPy, Experiment Builder, Qualtrics
Statistical software: R, JASP, SPSS
Quantitative methods: ANOVA, correlation and regression analysis, linear and generalized linear mixed-effects models
Research methods: Behavioral experiments, survey design, experimental task implementation, participant recruitment, and data collection
Languages: Mandarin Chinese (native); English (working proficiency)
